Dear Andrew,

Recently, I have created a GitHub link to facilitate online discussions and information sharing among association members. To make this platform effective, I am requesting access to the HOA member email directory.

Having a comprehensive and up-to-date email list will enable me to:

Invite members to join the GitHub discussion group, promoting a more engaging and informed community.

Send targeted updates and notifications regarding HOA activities, meetings, and important announcements.

Encourage members to participate in online forums and surveys, gathering valuable feedback and opinions.

I believe this initiative will enhance our community's communication and foster a more collaborative environment.

Thank you for considering my request. I look forward to your response and to working together to improve our HOA's communication channels.

Sincerely,

Scott Ellis
